Sound Deadening Packages

To Improve the acoustic nature of the room you have designated as your studio. These fire retardant packages have a significant impact and can be installed onto most surfaces.

Legal Music Download Service

We now offer a music download service to provide you with a safe, legal source of music from all genres and eras, for a small monthly subscription fee. This service provides access to the complete 'I Like Music for Media' database which includes every UK top 40 hit since the chart started in 1952 and most US 100 Bill Board hits for the same period so whether you need some Elvis or the latest Timberland, you can be sure you will have it in minutes.

The database is used by the BBC to source music for television radio productions.

- **Search and download from a database with millions of songs**
- **All songs are top quality, uncompressed WAV files**
- **Download up to 50 new tracks each month**
- **The service also includes full ownership data, direct from PPL/PRS – Music Reporting made easy!!**
- **As part of the subscription you also get free access to a Production Music service, aggregating over 300,000 tracks from over 100 labels**
- **Low cost monthly fee**
- **Pay annual and get an extra 60 downloads free**

In partnership with

Music downloaded from this service is intended for use on your radio station only. You will still need to obtain the necessary PPL and PRS licenses for any type of web, speaker or FM/AM broadcast.

Notes

12 Months Free Web stream hosting limited to 30 concurrent streams @ 64kbps mp3, the 12 months commences from the date of your installation. To commence usage of the service you will need to request that it is configured, a password and publishing point will be created and the details of how to set it up will be emailed to you. The PC will require a valid internet connection; this is not the responsibility of P Squared to provide. Larger packages are available on request. An email will be sent to you (after 11 months) offering you additional streaming before the automatic cessation of the service.
